A FEW QUESTIONS?

Why did you throw that lamp away?
Was it because you couldn't find a burner?

Was it because you couldn't find a wick?
Was it because you couldn't find a chimney?

Was it because the collar came off?
If it was for any of these causes, don't throw another lamp away, but bring it to us and we will fix it for you. Why we will even fix your Center Draught lamp, so you can burn either gas or electricity in it.

FIERCE BATTLE

Between Chess Players Resulted in an Even Break.

By Associated Press.

New York, April 22.—After a fierce battle of two days, the chess players representing the United States and the United Kingdom, broke even in the sixth international match by cable. The Englishmen scored two games and kept the lead until this evening when the victories by Newman and Pillsbury offset their advantage. Two games were agreed upon as drawn, so when the twelfth hour, London time, approached there were still four games going, which by rule should have been submitted to the referee for adjudication. By mutual consent, however, two more games were called drawn and each side was awarded one game. This compromise met with general approval and is considered very fair.

The fate of the Newnes trophy is still in abeyance. The deed of the gift, while mentioning that after three matches the trophy should be accounted in possession of the last custodian, does not state clearly whether a drawn match, as the present one, is to be counted alone or whether it breaks the sequence.

The question will be submitted to a referee by Baron Rothschild, of Vienna.
